SUMMARY

Creative strategy and design leader with 8+ years building brand systems, visual frameworks, and campaign direction across EdTech, SaaS, and agency environments. Translates brand positioning and business objectives into scalable design systems — from visual identity and brand guidelines to cross-channel campaign execution. Led teams of 3–8 designers, managed multi-client creative production at agency scale (50+ clients including Amazon, Bosch, and Schneider Electric), and built standardized design workflows adopted org-wide. Brings GenAI-augmented production capabilities that triple creative output without compromising brand quality or consistency.

EXPERIENCE

Associate Creative Director

Dec 2022 – Oct 2025

 KodeKloud · Marketing · Remote / Singapore

- Led a lean creative team of 3, managing end-to-end creative ops — briefing, production pipelines, stakeholder alignment, and QC — across 200+ brand assets annually.
- Developed end-to-end brand and visual strategy; built scalable design systems and creative frameworks — visual guidelines, campaign templates, and asset libraries — used across all digital touchpoints and brand collateral.
- Drove cross-channel campaign strategy across YouTube, LinkedIn, and paid social; defined visual direction and creative frameworks that improved average CTR by 18% across brand and acquisition campaigns.
- Built GenAI-augmented production workflow (ElevenLabs, Midjourney, Firefly, Descript) cutting production time by 35% and scaling output 3x without headcount increase.
- Managed freelancer relationships and external vendor briefs; maintained brand consistency and delivery standards across all third-party engagements.
